(10 illustrated) signed by Banez and Lindall, Black Velvet Cover. The book contains The Satanic Verses of Bienvenido Bones Banez Jr., an artist deemed by Lindall to be one of the greatest of our time.

"Without a doubt, Terrance Lindall is the foremost illustrator of Paradise Lost in our age, comparable to other great illustrators through the ages, and someone who has achieved a place of high stature for all time." Dr. Rober J. Wickenheiser, Renowned Milton Collector

"The poetic conceit that Bones is working with is that we're already living in the tribulation of the eschaton, and the poem is his artistic vision, accompanied by vivid, electrifying artworks depicting, in some way, those troubled times." Dr. Horace Jeffery Hodges

"Lindall and Banez! A collaboration made in Book Art Heaven!" James Baldwin Cohen

"Consisting of ten books, lavishly illustrated with Banez visual masterpieces,

illustrated with Banez visual masterpieces, The Satanic Verses, in alignment with Paradise Lost, contextualizes the devil in times of modernity. The collection obviates man's archaic fear of the hellmaster, which for six millennia prevented humankind from understanding Divine perfection. From being God's chief rival in earlier books, Beelzebub, taking advantage of man's power of reasoning, morphs himself as everything that tempts, pleasures, and taxes man, snaring practically everyone, believers and unbelievers alike. Ultimately, the Prince of Darkness is disclosed with sound philosophy as instrument for the actualization of a higher, yet unrealized, Almighty scheme!" Phillip Somozo

NOTE: Neither the WAH Center nor the Yuko Nii Foundation endorses any socio-political content of Bienvenido Bones Banez or his Satanic Verses. It is presented at the WAH Center for its artistic and literary content only.

*"A masterful work directly impinging upon our immediate times and the near future of our society. Essentially, 'the chicken has come home to roost!'" — Terrance Lindall*

**From the Author of The Satanic Verses of Bones Banez**

"For YOU are the numbers by which the Beast rules. By the numbers of the mortgages you hold and must repay, by the numbers of the interest rate under which you groan. Hangs from the golden thread of

one great thing: That when a man owns, he wants more, always more. And will borrow, for a dream, of future happiness. And then will slave until his dying day..to repay!"

Dear Friends, Welcome to "The Welcome Tribe!"

My parents named me Bienvenido, which means, "welcome." I was born into this fulminating world as unaware as you that it is moving toward a destiny we cannot possibly desire. It has been ours to discover what that destiny is. Our parents and community educated us with cultural, religious and politico-social values that have sustained us. Yet great mysteries remained to us and most of us die from this life "unenlightened."

What has been apparent is that although some of us prosper or "get along in life," working and raising families, others have a more difficult time and a few have enriched themselves from the work of the

enriched themselves from the work of the many others far beyond the means by which they can enjoy that wealth. Why is this? What does it gain for those so enriched. Well there is a grander scheme to that!

In this time at the beginning of the 21st century we see that there are more billionaires and multi-billionaires than ever before, especially in America. Yes, in this America, so called "land of the free" where equality or at least equality of opportunity is supposed to be our creed and our right. For a short time after the Second World War, Americans and even we in other lands did enjoy prosperity for the working class. Now that has changed as if a contagious disease of avarice was brought back from Europe, perhaps hidden among the refugees we took in, after our noble victory to preserve the promise that America embodied. It has all changed since then and the fact that now millions are unemployed or underemployed is not really reported in the figures that the

really reported in the figures that the government puts out since the government "interprets" and give us what we want to hear so as not to cause undue concern or even despair among us. Who is not counted? Those who have dropped out of the work force and are living in tents or in the street, many who have served in the army killing in other nations that have not even attacked us. Why?

In 2008 the voracious money men led by the Federal Reserve galloped too fast in their unswerving race to swallow us and enslave the population to money lending mortgage slavery and they tripped. Then our government, instead of bailing out the working class home owning population that was duped into mortgages they could not pay, bailed out the very criminals that caused the problem.

I am not advocating any action...except: get to know your neighbor. Welcome them. I want you to be part of the "Welcome tribe!" Warn them of the coming collapse that is imminent. Plan for taking care of

tribe!" Warn them of the coming collapse that is imminent. Plan for taking care of one another. Some of you think that you will have a job no matter what. That is not the case. Some of you think government will help you. It will not. The men in government will help themselves and their families like they bailed out the moneymen in 2008. If you rise up and begin to protest, government will label you a terrorist and, persuaded by the moneymen, will create a crisis in another country and conscript you into service and YOU WILL GO TO FIGHT AND KILL your brothers in other lands because it is the only way you can get paid to feed yourself and your family.

In my Satanic Verses I want you to understand that whether you believe in God or not Satan is real...as a spiritual concept blossomed or blossoming in the hearts of some men to want to control or enslave others to enrich themselves. This desire to own and enslave in some men of unique abilities has manifested many times in the course of human civilization. but the

unique abilities has manifested many times in the course of human civilization, but the astonishingly rapid pace of it at this time is like the grisly face of a Tsunami to a man on the beach (perhaps you) who is aware of impending doom but consciously refuses to acknowledge it...because it is TOO LATE!

The fantastic visionary art of Bones Banez, the greatest surrealist of the Philippines on view Fall 2014 with his Gold Elephant folio!

"For we are opposed around the world by a monolithic and ruthless conspiracy that relies primarily on covert means for expanding its sphere of influence—on infiltration instead of invasion, on subversion instead of elections, on intimidation instead of free choice, on guerrillas by night instead of armies by day. It is a system which has conscripted

day. It is a system which has conscripted vast human and material resources into the building of a tightly knit, highly efficient machine that combines military, diplomatic, intelligence, economic, scientific and political operations.”
